

# Google Workspace for Education

iSmile Technologies team of experts offers free setup of Google Workspace for Education to all the Non-Profits. Our services include the implementation of Google Workspace's configuration and security settings.

## Phase 1: Consultation with Non-Profits

Analysis from our experts on the current services used by the Non-Profits either its paid Google Workspace or other to compile which of the services they need the most. We work on understanding the current situation of the non-profit, and if any organization is not aware of Google Workspace, then we explain everything about it to them. This phase includes:

1. Audit current services in use
2. Google Workspace discussion and review
3. Identify the use cases for the features to be focused on while implementing GoogleWorkspace

## Phase 2: Collaborating all the information

To set up Google Workspace for Non-Profits, we need to have some of the confidential information of the Non-Profits like their TechSoup number, email address, and more. Information collaboration includes:

1. Non-Profit's confidential information
2. Number users and their details
3. Review suggestions for setting up and improving the Google Workspace environment

## Phase 3: Implementation

In the last phase our Google Cloud experts move ahead to implement this world-class platform for the NGOs. In this phase, consulting sessions guiding the analysis, remediation and recommendations, and reviewing configuration changes. The client will implement adjustments to settings with Pythian's suggestions.

## Get started with iSmile Technologies

Harness the nearly limitless capabilities of Google Workspace for Non-Profit organizations and let ismile Technologies ease the Google Workspace admin workload today. Contact us
